## PROJECTS

### HPAY - (ongoing)

Creating a payment banking services application with react native, springboot and rest API's.

### Costamised GPT

Using RAG methodology, I created a LLM, that gives response by using our data's. It's create efficient time on business, increase lead generation by easy analysing.

### Emotion Detection using CNN

The project "EMOTIONAL DETECTION" aims to detect emotion from facial expressions. The results showcase emotionally intelligent systems that can better understand and respond to human emotions.

### Sales Insight dashboard

Using Power BI, power queries and excel. I created a sales insight portable dashboard, which can be accessed on laptops as well as mobiles.

## CERTIFICATES AND ACHIEVEMENTS

**Leetcode** --- 100 questions solved, Rank : 77,564

**Core Java**, Great Learning

**SQL** - four star batch in Hacker rank

**Professional Data Analysis**, google

2023 Feb – 2023 May

**Data Analysis using python and BI**, Udemy

2022 Dec – 2023 Feb
